Home Helps.

When gas mantles are blackened, they can be cleared by sprinkling with salt when flame is turned low, turn light full for a minute and repeat until clear.

Try mixing flour and water for thickening with a fork, instead of the usual spoon. It is less likely to turn lumpy.

In cleaning wall paper with bread crumbs, use two days' old bread, in small pieces; clean with downward light stroke. Never go twice over the same surface and never work horizontally. Cut away soiled parts of bread continually.

Paint wooden pails and tubs with glycerine to prevent shrinking.

To test linen or silk, wet a spot. If the moisture goes through, the linen or silk is pure.

When frying mush, dip the slices first in the white of an egg. This makes them crisp.

The secret of keeping chamois skin and chamois gloves soft and supple is to hang them up to dry while still soapy.

When blacking the stove, mix the black lead with turpentine. The polish will shine more brightly and last better.

When next making a chocolate custard or icing, add just a little ground cinnamon. The change in flavor is delicious.

It has that true delicacy of flavor which is so refreshing to the taste, that warming and grateful toning to the stomach which responds so favorably to its action and the laxative effect which is so beneficial to the system when, occasionally, its gentle cleansing is required.

The genuine, always bearing the name of the California Fig Syrup Co., may be purchased from all leading druggists in original packages of one size only, price fifty cents per bottle.
